PLAN · cuts 0.2 (grey), 1.0 (black), 1.3 and 1.55 m (green) above the deck

FROM THE WHEEL, LOOKING FORWARD · what stands between the eye and the sea

The red box is the compass card and its housing: at 1.50–1.62 m it stands level with the eye, dead ahead.

ON THE CENTRELINE · looking to port

Over the console top the sea is seen from 38 m ahead of the eye (24 m beyond the bow); the compass housing is at the eye's own level, so the sea within 75 m is hidden in a 13° arc right ahead.

EQUIPMENT TAGS ON THE PLAN

073 Steering stand (pedestal)
074 Helm wheel (eight spokes)
076 Engine telegraph lever, port
077 Engine telegraph lever, starboard
080 Console, 5.5 m wide
081 Radar display (CRT) · 10CTA10 GS002 (shared)
082 Echo sounder display · 10CTA10 GS002 (shared)
083 Engine and heading repeater panel
084 Magnetic compass periscope
085 Navigation-light panel (4 double-pole switches) · 10CTA20 GS001
087 Chart table with drawers and red lamp
088 Paper chart on the table
089 Master's high chair (pedestal)
090 Red panel on the aft wall (by its place and colour
091 Panel of six green indicator lamps
092 Two unnamed console boxes (dark)
101 Clock and barometer (drawn, unnamed); inclinometer
104 Wing doors (two, weathertight)

FINDINGS SHOWN ON THIS SHEET

BF-01 [risk] Seen from the helm the glass covers 173° of the 225° the navigation-bridge guide asks for
BF-02 [risk] The compass card and its housing stand on the line of sight dead ahead
BF-03 [error] The two engine levers are crossed
BF-05 [error] Two unnamed dark boxes on the console stand inside one another
BF-09 [gap] The wheelhouse has no thruster lever, no autopilot, and neither wing console
BF-11 [error] The wing doors are drawn as plates laid beside their doorways, over a window and a wall
BF-12 [error] The opening from the wheelhouse to the crew stair is 1.50 m high
