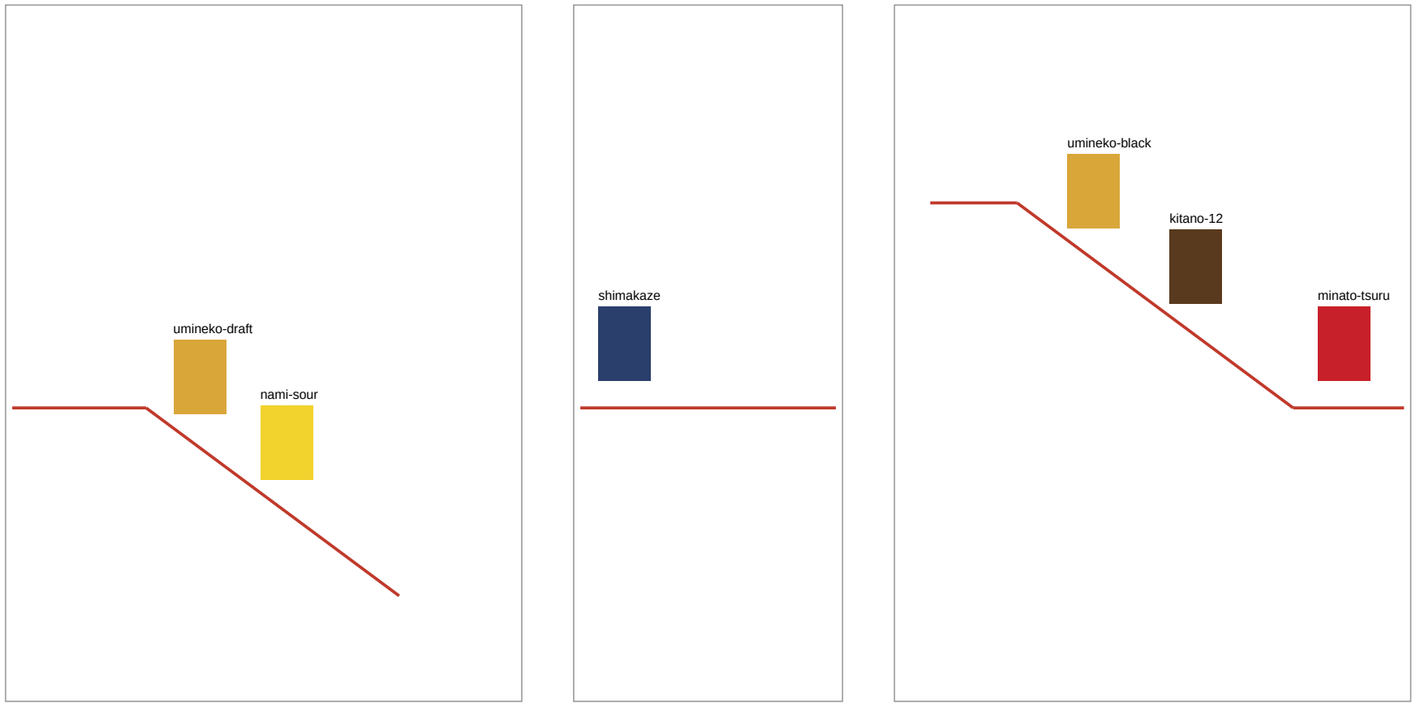
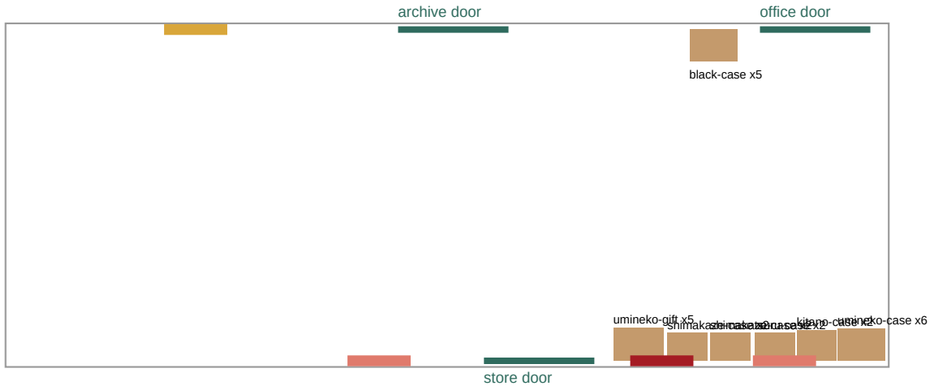
SK-ST-003 Sakura staff walls: trade posters on the stair and in the hall, the drink stock outside the office rev A 27 October 2026



north wall: lower flight and landing west wall: landing south wall: landing and upper flight

Stair walls unfolded 1:60, seen from inside (shop frame heights). Red: the handrail; each poster 120 mm or more over it at its higher edge.



Office hall plan 1:50 (office frame; the stair head left, the rest room right). Thick lines: posters; tan: case stacks; green: doors.

Why they are here (sakura-trade-posters.js):
- Since Higa Liquor closed Sakura sells and supplies all the island's drink. The brewers' and distillers' reps send campaign posters with each season's order; the spares go up on the staff walls. Asagao's rep left two, hoping Thuan will take their lipsticks. Every drink poster carries the drinking-from-twenty line.
- The cases: the year-end gift orders (o-seibo) and the Coral Bay Bar's December spirits wait dry upstairs by the office and its safe until Koji's round. Hand-stacked: a few mm off, a degree turned.
